

Integration of Multiple String Solvers

Siwakorn Srisakaokul, Wing Lam

Department of Computer Science, University of Illinois at Urbana-Champaign, Urbana, IL
{srisaka2, winglam2}@illinois.edu

Constraint solver	DPRLE	HAMPI	Z3-str
DPRLE	-	30.5	13.0
HAMPI		.0?	.0?
Z3-str	.0?	.0?	.0?

Fig. 1. The test prioritization algorithms may choose a different test order than the original prioritization algorithms. This table shows the decrease in the APFD value, which is a metric of prioritization quality.
